

SLMP Conformance Test Regulation

CC-Link Partner Association (CLPA) prescribes for the SLMP Conformance Test regarding SLMP products as follows.

1. Application Sphere

1.1 This regulation is applied to materials/ devices prepared by partner companies, test items, reports on test results, and issues of certificates of the Conformance Tests prescribed by the “CC-Link Partner Association Membership Agreement” and “Agreement on Development, Manufacture, Sale, and Use of SLMP Products”

1.2 The Conformance Test is the evaluation test to confirm whether partners’ products are compatible to CC-Link or not. Please refer to the “CC-Link Partner Association Membership Agreement”, “Standards of Conformance Statement”.

This test does not guarantee the qualities of their products.

1.3 Partners should pay for the cost. Please refer to the “CC-Link Partner Association Membership Agreement”.

3. Conformance Test Specifications

The test method and judgment standard should be based on the following documents:

SLMP Conformance Test Specification (Client) BAP-C0401ENG-039

SLMP Conformance Test Specification (Server) BAP-C0401ENG-040

- (1) When you do test it using Test Tool, please submit the request book and test result which output from Test Tool to CLPA.
- (2) When you do test it using test device (PLC etc.), please submit the request book which filled properly and signed original of application form to CLPA.
- (3) As you can borrow it from CLPA when test device are necessary, please request us.

4. Certified products / Compliant products

SLMP products that are developed or manufactured by a Regular, Executive, or Board Member and have received the certificate from CLPA based on the paragraph 5 of Article 3 are referred to as certified products. SLMP products that are developed or manufactured by a Registered Member or Non-member and have received the certificate from CLPA based on the paragraph 5 of Article 3 are referred to as compliant products.

5. Conformance Test Result and Certificate

- 5.1 As for the conformance test result, "Conformance Test report" should be sent to partners.
- 5.2 The improved conformance test result should be added on the report. The partner and CLPA should discuss about the points.
- 5.3 The conformance test certificate should be issued on condition that the product passes all test items.
